**DESCRIPTION**

The GM series is a versatile small knife grinding machine. With its 650mm grinding length, it has many options and accessories and can sharpen many different types of smaller blades like:

- ✓ Planer knives;
- ✓ Small chipper knives;
- ✓ Small granulator blades;
- ✓ Disposable blades (Tersa, Weinig, Sinus, etc);
- ✓ Profiled hard-metal (Widia) inserts.

**TECHNICAL FEATURES**

- ✓ Cast iron machine bed;
- ✓ Automatic downfeed grinding head with automatic stop at preset height;
- ✓ Tilting head to grind hollow surfaces;
- ✓ Carriage run guides covered with replaceable hardened steel guides;
- ✓ 90° rotating knife-mounting chuck;
- ✓ Coolant pump;
- ✓ Chain driven carriage;
- ✓ Supplied with stepped blocks to grind 4 overlapping planer blades simultaneously.
